Overview

This feature provides the functionality for users to register and log on to the eStore system.

Registration includes an email validation process whereby the system sends the user an email with a link that the user must click in order to activate their account.
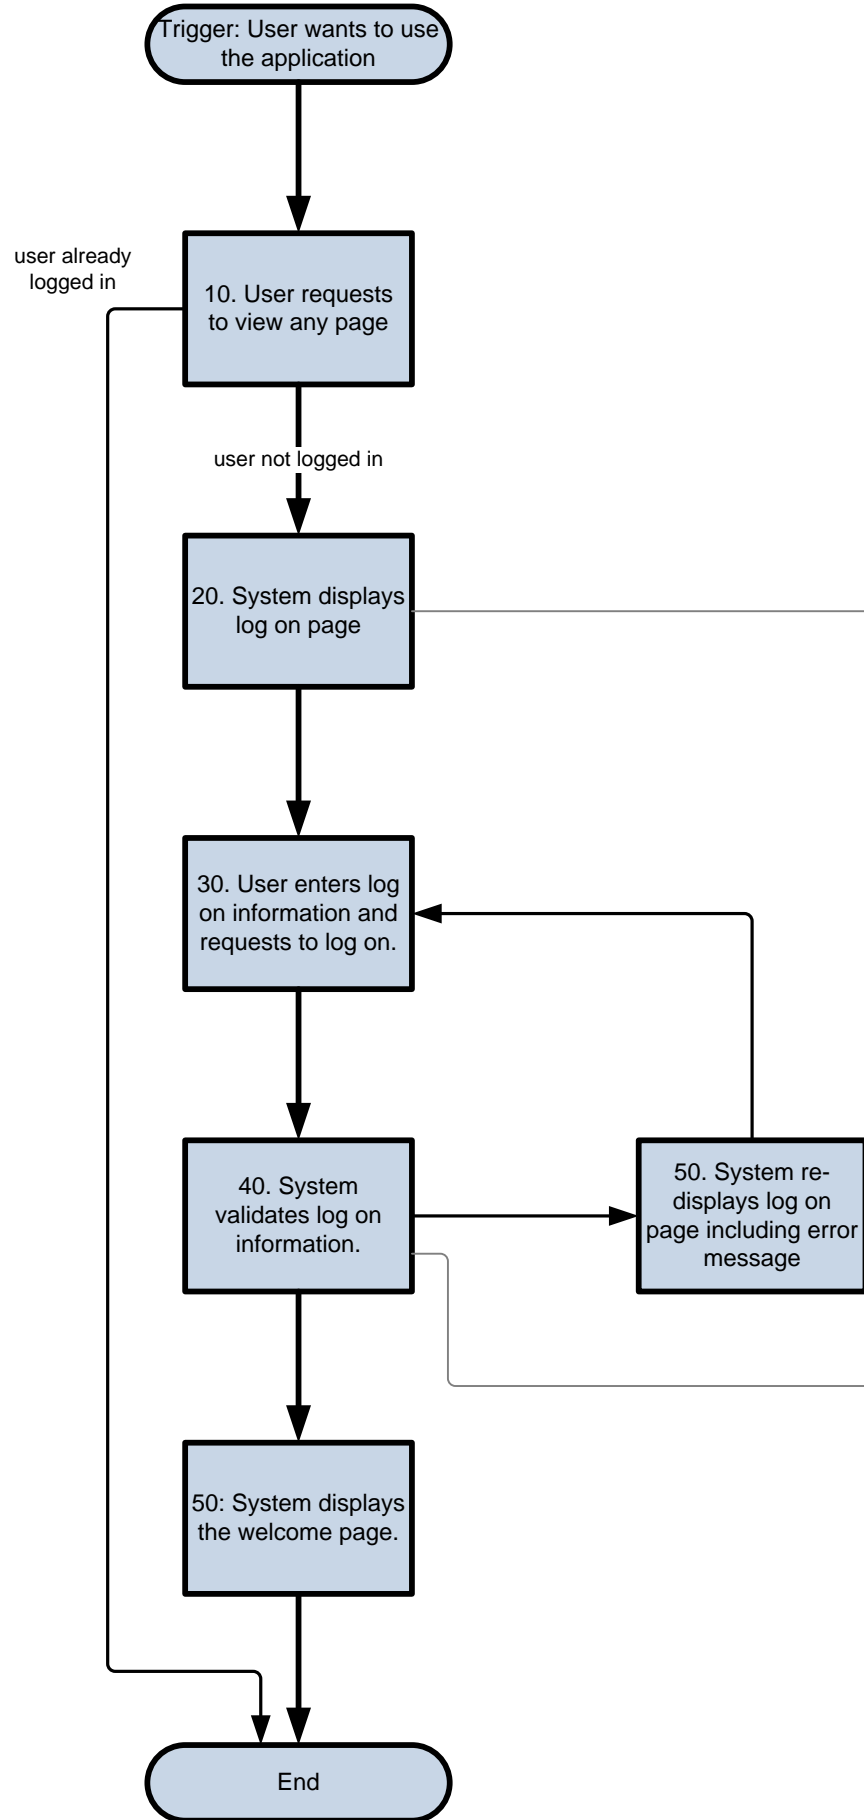

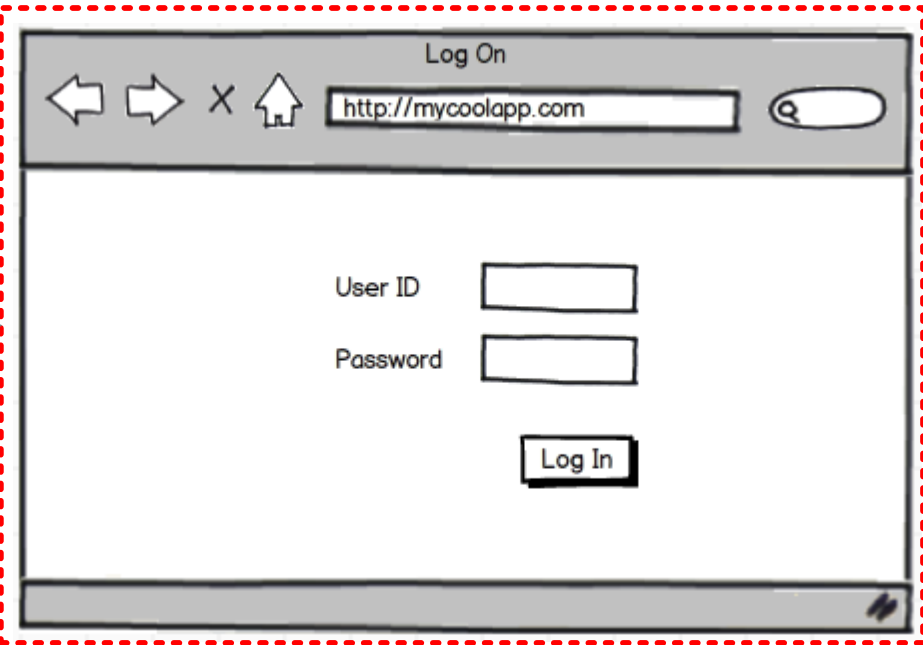

Context Diagram

Use Case Index

| Use Cased ID	Name	Summary	Actor(s)	System(s)
U001	Log on to system	Customer logs on to the system to gain access to protected areas	Customer	eStore
U002	Register an account	Customer registers an account (including validating their email address)	Customer	eStore, CCS

Use Cased ID	U001
Name	Log on to system
