

HOW TO UP-LEVEL YOUR BUSINESS ANALYST CAREER {WEBINAR WORKSHEET}

FIRST, LET'S GET YOU A QUICK WIN!

Here's a secret about getting to the next level. What looks like an overnight success is actually the result of one small incremental change after another.

Just like your bank account expands with the benefits of compounding interest, each seemingly small change you make in your career builds on the next, until you find yourself in a drastically better place.

The best time to start taking these actions was years ago. The second best time is – you guessed it – TODAY. **In the box below, write down 3 actions you can take to move your career forward.**

- If you are seeking a BA role, examples include calling a recruiter, reaching out to a colleague, or finding a business process to analyze.
- If you are in a BA role, this could be asking a powerful question, clarifying your next step on a project, or volunteering for a project in a new area that will stretch your skills.

Now, star one item that is the easiest, quickest win. **AND TAKE ACTION.** Don't overthink this. You are a brilliant, analytical mind. Trust yourself to take action on the first idea that comes to mind.

I'd love to hear about your win. Email me or post in our [Bridging the Gap Facebook group](#). You never know who you might inspire.
